X - CBSE

Technical Skills

Operating System: Microsoft Windows, MAC

Programming Languages: Python, HTML, CSS, JAVA, DJANGO

Certifications: JAVA

Project

LOAN PREDICTION USING MACHINE LEARNING.

The idea behind this project is to build a model that will classify how much loan the user can take. It is based on the user's marital status, education, number of dependents, and employments.

I have used K-Nearest Neighbors (KNN) to predict the loan status of the applicant and linear model to estimate how much the user can give the user's details.

ALGORITHM USED

Linear Regression

PROGRAMMING LANGUAGE USED

Python

Other Skills

- Good logical and analytical skills.
- Excellent in Interpersonal and Decision-making abilities.
- Curious to learn and explore different arenas.
- Determined and Optimistic personality
